# You want an experienced specialist to handle your vascular care. We couldn't agree with you more.

Dr. Kahn, vascular specialist, brings his experience and expertise to our community, making sure your vascular health is diagnosed and treated.

As you age, weakened veins and arteries increase the risk for vascular disease. Risk also increases if you smoke or have diabetes. So, if you are 50 or older, you smoke or have diabetes, talk to your doctor about vascular disease.

Ask if you should be treated by a vascular specialist, or call Dr. Kahn for a consultation at 215-836-5120.
